Why a Tasting Flight

We grow on separate estates and we do not blend them. Each bar is a single origin, so the same 81% recipe reads completely differently depending on the soil it came from. A flight lets your customer taste that difference side by side — which is the same reason your tasting room exists.

The Origins

Oscar's Farm — Bahia, Brazil
Deep, dark European chocolate profile with exceptionally buttery, velvety mouthfeel. Intense chocolate notes with subtle undertones of earth and wood. Smooth, low-acidity finish.

Fazenda Santa Ana — Bahia, Brazil
A second Bahia estate with its own micro-climate and a distinctly different cup profile from Oscar's. Tasting notes on request.

Fazenda Sao Jorge — Bahia, Brazil
Historic Bahia estate. Tasting notes on request.

Vivi's Jesus Do Deus Farm — Itacare, Bahia
Top-grade organic cacao grown in cabruca agroforestry -- a former cattle ranch transformed into regenerative cacao forest.
